

## ICAO National Civil Aviation Security Programme (NCASP) Workshop

### Workshop Aim

This workshop is designed to equip participants with knowledge, skills and attitude required to contribute effectively to the development, implementation, review, and continuous improvement of an effective NCASP.

### Who should attend

- Participants should be at the middle or senior management level with responsibilities in the development, approval and/or implementation of the NCASP

### Entry Requirements

- Those who work for the National Appropriate Authority responsible for aviation security, other regulatory authorities, and/or other stakeholders that have an active role in the development and/or implementation of NCASP
- Previous knowledge and/or experience in aviation security operations or oversight; and
- Ability to communicate effectively in English

### Workshop Content

- i. Define the purpose and objectives of the NCASP and establish the roles and responsibilities of all aviation security stakeholders.
- ii. Assess the legislative and regulatory requirements needed to support an effective aviation security programme, including compliance with national and international standards.
- iii. Implement security controls and protective measures for cargo, airports, aircraft, navigational aids, personnel, vehicles, and other items entering secure areas.
- iv. Develop effective communication and training frameworks to support aviation security operations and stakeholder coordination.
- v. Understand and apply relevant Amendments to Annex 17 requirements, including behaviour detection, risk-based security measures, MANPADS, landside security, security technology, cyber-threat considerations, and NCASP development team composition.

### Workshop Duration

- 5 Working Days

### Workshop fee

- Tanzanian: TZS 800,000
- Non-Tanzanian: USD 800
